Greg,

Additional information on the final destination for the input. Apparently it is to review the paper for American Water and the WV Dept of Health and Human Services.

All,

I received the following response from Bill regarding the audience for our review paper.

## Ex. 5 - Deliberative

Given the high probability of FOIA requests related to this incident, we should assume that our response will eventually make it into the public domain – although we don't need to write the response for the general public, we can keep it technical.

Thanks,  
Steve
